Cyprus – February 2015  
(thank you Yellow Shirts Baia Mare)

In february 2015, I have been selected by “Yellow Shirts Baia Mare” to be a participant in an International Youth Exchange that took place in Vavatsinia, Cyprus.

The venue was a mountain resort, on the highest peaks of the island. The camp where we were belongs to the Scouts Organisation, due to this fact the standards of quality were pretty high. In the first few days the participants engaged in many non-formal activities trying to bond with each other and also get to know each other. During the whole 10 days, all the participants from the 6 different countries tied friendships and made funny memories.

I'm very glad I had the opportunity to be selected to take part in this training course ! I had an amazing time and I am glad I had the chance to learn from such great trainers. The selected venue was perfect for such an event and also given the period I would say that it couldn't have gone any better !

My experience during the training in Vavatsinia, Cyprus was incredible. I had a blast with all the participants, all of them were great. I am very thankful for a truly amazing time and I already miss all the friends that I've made. Of course, I can't wait to see them again.

*What are your plans regarding the follow-up of this project upon your return home ?*

“Upon my return, I plan to organize meetings with the young leaders of the organizations from my local community in order to spread throughout them the pieces of knowledge that I will have assimilated during the training course. This way, I plan to invest, from the point of view of the educational act, in the future and in the development of the youth, for that the first group of youngsters that I will have a positive impact upon, they will afterwards do the same with others and so on. One step at a time, it is a leader's duty to create other leaders in return.

Regarding my organization, I will have the duty to make sure that all the other members will, in one way or another, develop the same abilities and skills that I will have developed during this training. I do believe this will be a main responsibility that I will have towards my colleagues because the success and the well functionality of a group always depend on a harmonic development of all the members together as a team. For this to happen, I will organize a team-building trip in which I will held training sessions and workshops with the members of my organization.”
